

KARTA WIN

WINE LIST

„We must be sober.
Truly sober, therefore, intoxicated.
We must drink wine.”

Béla Hamvas, The Philosophy of Wine

„What is life worth without wine?
It came into being to make people happy.”

Wisdom of Sirach, 31.27

„Natural wine = nothing added, nothing taken away.”

Andrea Calek, natural winemaker in Rhone, France

* In the present wine list you can find almost thirty biodynamic wines. Not all of them are certified by Demeter or other organizations because some producers prefer to keep their independence. Sometimes they fulfill requirements that are even more strict than the official ones. Others don't care about being officially branded as biodynamics, they just focus on doing their job as naturally as possible. The main source confirming the biodynamic standards of those producers was „Natural Wine” by Isabelle Legeron.
